SUBJECT and TITLE INDEX

SPE Journal • Volume 17 • 1961

Acetal Resins

Dimensional, Control of Molded Acetal Parts, Milton A. Sanders, *February, p. 157*

Adhesives

Flexible Polyester Liquid Epoxy Resin Condensates, John Wynstra, *May, p. 481*

ANTEC—17th—January 1961

17th Annual Technical Conference—January 24-27, *January, p. 25*
The PAG's at ANTEC, Frank W. Reynolds, *January, p. 110*
Highlights of SPE Progress at the 17th ANTEC, Robert D. Forger, *March, p. 291*

Appliances

Plastics in Major Household Appliances Roundup, *December, p. 1259*
RETEC, Plastics in Appliances, *Oct. 25, 1961,* Kentuckiana, *September, p. 952*

Automotive

PAG Develops Comprehensive Program to Serve Automotive Industry, Travis Meister, *August, p. 773*
Plastics for the Automotive Industry—Staff Condensation, *p. 645*
RETEC, Plastics for Automotive Uses, *May 9, 1961,* Detroit, *April, p. 323*

Blow Molding

Establishing the Successful Plastics Processing Plant, Richard S. DeBell and Melvyn A. Kohudic, *November, p. 1159*
Extrusion for Blow Molders, Robert D. Sackett, *May, p. 443*
The History of Blow Molding, Gerard C. Heldrich, *May, p. 435*
Trouble Shooting in Blow Molding, H. S. Malby, A. N. Ciarlone, C. M. Greene, *July, p. 653*

Buildings

Plastics as Materials of Construction—A Review, Raymond A. Seymour, *February, p. 148*
RETEC, Plastics in Building, *April 20, 1961,* Western New England, *March, p. 219*
RETEC, Vinyl Plastics in the Household, *November 15, 1961,* New York, *October, p. 1057*

Casting and Tooling

Casting and Tooling, PAG to Develop Application Information for End Uses, Edward Ferrari, *June, p. 595*
Castings Bibliography, Edward Ferrari, *May, p. 478*
RETEC, Plastics for Tooling, *September 2, 1961,* Central Indiana, *July, p. 642*

Corrosion

High Density Polyolefins in Corrosion Engineering, O. E. Larson, *May, p. 471*

Design of Plastics

RP Aviation Gas Turbine Compressor Housing, C. H. Vondracek and R. W. Sampson, *August, p. 743*

Electrical and Electronic Applications

Casting to Close Tolerances with Unfilled Epoxy Resins, B. W. Nelson, E. J. Morrisey and S. D. Marcey, *March, p. 257*
Encapsulation Through Molding, Milton A. Sanders, *October, p. 1079*
Plastics Used in Electrical Appliances, L. M. Kline, *July, p. 681*

Epoxy Resins

Casting to Close Tolerances with Unfilled Epoxy Resins, B. W. Nelson, E. J. Marcey, *March, p. 257*
Effect of Finishes on Heat Resistant Phenolic and Modified Epoxy Laminate Systems, John Miglarese, *December, p. 1285*
Epoxy-Mica Paper Laminate Reinforcement, E. C. Dingman, *September, 1961, p. 981*
Flexible Polyester Liquid Epoxy Resin Condensates, John Wynstra, *May, p. 481*
New Techniques in Applying Epoxy Troweling Compounds, T. S. Loeser, *March, p. 252*
Two Flexible Epoxy Resins, R. F. Helmrich and L. D. Harry, *June, p. 583*

Exhibitions

Ninth National Plastics Exposition, *May, p. 424*

Extrusion

Electronic Control for Plastic Tube or Pipe Wall Thickness, Ardmore M. Willer, *December, p. 1279*
Extrusion Bibliography, L. Street, *June, p. 551*
Extrusion for Blow Molders, Robert D. Sackett, *May, p. 443*
Extrusion of Sheet From High Density Olefins, Robert Doyle, *February, p. 165*
Heating Capacity Limitations of Extruder Screws, Bruce H. Maddock, *April, p. 368*
Paste Extrusion of Filled TFE Resin, R. W. Johnson, *February, p. 151*
Ram Accumulators for Blow Molding, C. J. Waechter and A. W. Pomper, *October, p. 1059*
Thickness Measurement of Extruded Film, George Gerhard, *November, p. 1171*
Trends and Needs in Extruder Design, Bruce H. Maddock, *April, p. 327*
Trouble Shooting in Blow Molding, H. S. Malby, A. N. Ciarlone and C. M. Greene, *July p. 653*
Vented Extruder Design, L. B. Ryder, *August, p. 731*
What Price Output, Richard K. Senn, *March, p. 233*

Finishing and Color

Decorating of Plastics, T. E. Hayden and John Scharnberg, *June, p. 576*
Instrumental Specification of Color, David Penn and Harold Baker, *June, p. 580*
Newest PAG to Develop and Coordinate Plastics Color Technology, *October, p. 1110*
Plastics Decoration, M. Z. Thorson, *December, p. 1301*
RETEC, Plastics Finishing Seminar, Southern California, *February, p. 148*

Fire Retardancy

Rigid Polyurethane Foams and Fire Retardancy, Louis I. Naturman, *September, p. 965*

Fluorocarbon Resins

Paste Extrusion of Filled TFE Resins, *February, p. 151*

Foams

A New Catalyst for Urethane Foams, H. Stone, E. A. Dickert and J. S. Dunwoodie, *November, p. 1197*

Foamed Plastics Particles—Versatile New Materials, Betty Lou Raskin, *March, p. 249*
Plastics Foams Progress, *November, p. 1154*
RETEC, Plastics Foams, Oct. 5, 1961, Buffalo, *August, p. 725*
Rigid Polyurethane Foams and Fire-Retardancy, Louis I. Naturman, *September, p. 965*
Toluene Diisocyanate 2, 6-Isomer—Its Effect on Urethane Polymers, S. Edmund Gerber, Frank L. Cataldo, Frank J. Dwyer and Herman Stone, *February, p. 170*
Urethane Foams Processing Techniques, David Dworkin, *December, p. 1269*

Formaldehyde—Arene Resins

Microdispersed Formaldehyde—Arene Resins, J. E. Goodrich, *July, p. 683*

Hydraulics

Hydraulic Fluids, Fact and Fancy, George Arbocus, *August, p. 762*
Hydraulics on Plastic Injection Molding Machines, R. H. Mezger, *July p. 680*

Injection Molding

Automatic Injection Molding, J. K. Neely, *May, p. 475*
Comparison of Spiral-Cavity Mold Flow With Laboratory Scale Flow on Thermoplastics, J. J. Gouza and G. G. Freygang, *November, p. 1209*
Dimensional Control of Molded Acetal Parts, Milton A. Sanders, *February, p. 157*
Effects of Basic Polymer Properties on Injection Molding Behavior, Roger B. Staub, *April, p. 345*
Effect of Molding Conditions on Shrinkage of Modified Polystyrene, R. G. Hochschild, *April, p. 358*
Hydraulics on Plastic Injection Molding Machines, R. H. Mezger, *July, p. 681*
Interrupted Cycle Molding, Milton A. Sanders, *June, p. 557*
Molding Large Rectangular and Flat Items from High Density Polyethylene, J. V. Smith, C. G. Williams and L. R. Alexander, *August, p. 735*
Movable Screw Plasticizing Boom?, A. R. Morse, *June, p. 539*
Plastic Flow in Injection Molds, F. J. Reilly and W. L. Price, *October, p. 1097*
Plunger vs. Screw Injection Machines—A Comparison Richard Maier and Andre Thierstein, *April, p. 331*
RETEC, Injection Molding Workshop, Pioneer Valley, *February, p. 199*
RETEC, Screw Injection Molding, Dec. 1, 1961, Cleveland, *November, p. 1153*
The Rotating Spreader—A Device for Injection Molding, Neil Keiser, L. H. Cirker and P. D. Kohl, *April, p. 340*

Melamine Resins

Dimensional Stability Improvement of Impact Melamine Molding Compounds, W. A. Laurie, *December, p. 1310*

Molding (Other Than Injection Molding)

Casting and Tooling PAG to Develop Application Information for End User, Edward Ferrari, *June, p. 595*
Casting Bibliography, Edward Ferrari, *May, p. 478*
Casting to Close Tolerances With Unfilled Epoxy Resins, B. W. Nelson, E. J. Morrisey and S. D. Marcey, *March, p. 257*
Dimensional Stability Improvement of Impact Melamine Molding Compounds, W. A. Laurie, *December, p. 1310*
Latest Developments in Phenolic Molding Techniques, E. W. Vaill, *May, p. 463*
Molding With Plastisols, Howard Nadell, *January, p. 89*
New Heat Resistant Phenolic Molding Materials, W. C. Colclough, J. Harding and C. Y. Meyers, *March, p. 255*
Thermosetting Molding PAG Continues to Expand Activities and Membership, Ross H. Dean, *July, p. 690*

Moldmaking and Mold Design

End Correction Implication in Die Design and Polymer Processing, L. B. Ryder, *December, p. 1305*
Five New Parts for Better Molds, Clarence E. Ballentine, *November, p. 1185*
Importance of Good Fundamental Design, Clarence E. Ballentine, *March, p. 241*
Is This Tolerance Necessary, Milton A. Sanders, *January, p. 51*
Mold Finish Standards Developed by Metal Mold PAG, Russell E. Scholler, *September, p. 1010*
Molds of the Future—A Forecast, John A. Kavanagh, *September, p. 971*
The New Mold Its Problems and Some Solutions, John A. Kavanagh, *July, p. 661*

Nylon

Laboratory Processing Studies of Polyethylene, Polypropylene and Nylon 6 Coatings, John F. Morris, *August, p. 762*

Packaging

RETEC, Plastics in Packaging, June 6, 1961, Quebec, *May, p. 421*
RETEC, Plastics in Packaging, Nov. 2-3, North Texas, *October, p. 1116*
Some Blue Sky Packaging Ideas, Ralph H. Hansen, *October, p. 1102*

Phenolics

Cured Phenolic Resins Plasticized by Substituents on the Aromatic Ring, J. H. Freeman and Edward J. Traynor, *July, p. 673*
Latest Developments in Phenolic Molding Techniques, E. W. Vaill, *May, p. 463*
New Heat Resistant Phenolic Molding Materials, W. G. Colclough, J. Harding and C. Y. Meyers, *March, p. 255*
The Effect of Finishes on Heat Resistant Phenolic and Epoxy Laminates, John Miglarese, *December, p. 1285*
The Effects of High Vacuum and Ultraviolet Radiation on Plastic Materials, Norman E. Wahl, *August, p. 759*

Physical Properties and Standards

Evaluation of High Impact Polystyrene for Refrigerator Door Liners, B. A. Davis, J. V. Schmitz, R. S. Hagan and R. O. Carhart, *March, p. 260*
Federal Test Method Standards, Frank W. Reinhart, *December, p. 1291*
Hardness of Polymeric Materials, Eric Baer and A. E. Maier, *November, p. 1201*
Instrumental Specification of Color, David Penn and Harold Baker, *June, p. 580*
Long Term Working Stress of Thermoplastic Pipe, Frank W. Reinhart, *August, p. 751*
Measurement of Orientation in Polystyrene Film and Sheet, C. T. Hathaway, *June, p. 567*
Micrographic Examination of Poly (Vinyl Chloride) Tubes, M. A. Huber, D. Whitwham, O. Diner and J. Herenguel, *September, p. 1002*
Physical Measurement—A Challenge to Science and Engineering, Allen V. Astin, *May, p. 455*
Properties of a New Polyester Film, M. T. Watson, *October, p. 1083*
Relations Between Physical Properties and Molecular Structure of Polypropylene, N. H. Shearer, Jr., J. E. Guillet and W. H. Coover, *January, p. 83*
Standards for Plastic Pipe and Fittings, Frank W. Reinhart, *February, p. 159*
Writing Meaningful Specifications for Plastic Parts, H. S. Byrne, R. L. Miller and R. N. Peterson, *May, p. 469*

Plasticizers

Effect of Plasticizers on Plastisol Fusion, P. J. Graham and R. J. Darby, *January, p. 91*
Effect of Rubber Composition and Plasticizers Upon Polyethylene, Sydney Axelrod, *September, p. 992*

Cured Phenolic Resins Plasticized by Substituents on the Aromatic Ring, J. H. Freeman and Edward J. Traynor, *July, p. 673*

Plastisols

Comparison of Plastisol Extrusion Coatings with Conventional Coating Methods, C. H. Brower and R. A. Nunn, *June, p. 587*
Effect of Plasticizers on Plastisol Fusion, P. J. Graham, and R. J. Darby, *January, p. 91*
Molding with Plastisols, Howard Nadell, *January, p. 89*
Plastisol Distribution in Rotational Casting, L. A. McKenna, *September, p. 995*
Plastisol Gelation—A New Instrument and Formulating Technique, W. A. Bauer, *February, p. 174*
The Mechanics and Testing of Plastisol Gelation and Fusion, J. A. Greenhoe, *December, p. 1314*

Polyesters

A Study of Maleate and Fumarate Polyester Resins, Robert E. Park, Ruth M. Johnston, Arthur D. Jesensky, Robert D. Cather, *October, p. 1088*
Diallyl Phthalate Monomer, Gene Nowlin and L. S. Burnett, *October, p. 1093*
Flexible Polyester Liquid Epoxy Resin Condensates, John Wynstra, *May, p. 491*
Properties of a New Polyester Film, M. T. Watson, *October, p. 1083*
The Effects of High Vacuum and Ultraviolet Radiation on Plastic Materials, Norman E. Wahl, *August, p. 759*

Polymer Degradation

Electro-Thermal Analysis of Thermosetting Polymers, R. W. Warfield, *April, p. 364*
Polyvinyl Chloride Degradation and Stabilization, B. Baum, *January, p. 71*
The Measurement of Polymer Degradation by ZST Test, Theodore H. Meltzer and John J. Muldew, *January, p. 77*
Thermal Degradation of Organic Polymers, Samuel L. Madorsky, *July, p. 665*

Polyolefins

Chemically Cross-Linked Polyethylene, B. C. Carlson, *March, p. 265*
Effect of Rubber Composition and Plasticizers Upon Polyethylene, *September, p. 992*
High Density Polyolefins in Corrosion Engineering, P. E. Larson, *May, p. 47*
Laboratory Studies of Polyethylene, Polypropylene, and Nylon 6 Coatings, John F. Morris, *August, p. 762*
Pitfalls in Predicting the Performance Characteristics of High Density Polyethylenes, V. L. Folt, *April, p. 350*
Relations Between Physical Properties and Molecular Structure of Polypropylenes, N. H. Shearer, Jr., J. E. Guillet and H. W. Coover, Jr., *January, p. 83*
The Measurement of Polyethylene Degradation by ZST Test, Theodore H. Meltzer and John J. Muldew, *January, p. 77*

Polystyrene

Effect of Molding Conditions on Shrinkage of Modified Polystyrene, R. G. Hochschild, *April, p. 358*
Evaluation of High Impact Polystyrene for Refrigerator Door Liners, B. A. Davis, J. V. Schmitz, R. S. Hagan and R. O. Carhart, *March, p. 260*
Measurement of Orientation in Polystyrene Film and Sheet, C. T. Hathaway, *June, p. 567*

Poly (Vinyl Chloride) (Not Including Plastisols)

Micrographic Examination of Poly (Vinyl Chloride) Tubes, M. A. Huber, D. Whitwham, O. Diner and J. Herenguel, *September, p. 1002*
Poly (Vinyl Chloride) Degradation and Stabilization, B. Baum, *January, p. 71*
RETEC, Vinyl Plastics in the Household, Nov. 15, 1961, New York, *October, p. 1057*
The Promotion and Retardation of Cross-Linking in Thermally Processed Poly (Vinyl Chloride) Systems, Charles H. Fuchsman, *June, p. 590*

Processing

Establishing the Successful Plastics Processing Plant, Richard S. DeBell and Melvyn A. Kohudic, *November, p. 1159*

Reclamation

Reclamation of Thermoplastics, Louis I. Naturman, *October, p. 1059*

Reinforced Plastics

A New System of Large Structures of Glass and Polyesters, J. W. Heidacher, *March, p. 237*
Epoxy-Mica Paper Laminate Reinforcement, E. G. Dingman, *September, p. 981*
Laminating Techniques and Laminate Compositions, S. S. Feuer and A. F. Torres, *October, p. 1071*
Materials Design Handbook for Aerospace Vehicles, C. S. Grove and R. Ford Pray, III, *November, p. 1180*
Properties of High Modulus Reinforced Plastics, George P. Peterson, *January, p. 57*
RP Aviation Gas Turbine Compressor Housing, C. H. Vondracek and R. W. Sampson, *August, p. 743*
Reinforced Plastics PAG Undertakes Broad Program of Activity, George Lubin and Herbert E. Ennis, *April, p. 376*
Service Life Estimates for FRP Structures, R. P. Molt, *September, p. 971*
Simplified Analysis of Filament Reinforced Plastic Pressure Vessels, R. J. Brown, Jr., *September, p. 989*
The Ablation Heat Shield, John S. Malott, *May, p. 449*
The Effect of Finishes on Heat-Resistant Phenolic and Laminates, John Miglarese, *December, p. 1285*
The Spray-Up Process—Promising Fabricating Technique, C. E. Hayes, *June, p. 571*

Safety

Caution: Handle With Care, Charles A. Harper, *March, p. 225*
Plastics Used in Electrical Appliances, L. M. Kline, *July, p. 681*

Silicones

Thermal Stability of Silicone Resins Containing p-Phenylenedisilanes, L. W. Breed, *November, p. 1206*

Society—PAG Progress

Casting and Tooling PAG to Develop Application Information for End User, E. Ferrari, *June, p. 595*
Forming PAG Active in Many Areas, D. Wood, *February, p. 182*
Mold Finish Standards Developed by Metal Mold PAG, R. E. Schoeller, *September, p. 1010*
Newest PAG to Develop and Coordinate Plastics Color Technology, L. R. Sherman, *October, p. 1110*
PAG's Assume Increased Responsibilities in Revised Society Organization, S. Gobstein, *March, p. 289*
PAG Develops Comprehensive Program to Serve Automotive Industry, T. Meister, *August, p. 773*
Reinforced Plastics PAG Undertakes Broad Program of Activity, G. Lubin and H. E. Ennis, *April, p. 376*
The PAG's at ANTEC, F. W. Reynolds, *January, p. 110*
Thermosetting Molding PAG Continues to Expand Activities and Membership, R. H. Dean, *July, p. 690*
The Value of the PAG's to SPE, S. Gobstein, *December, p. 1323*

Society—Society Action

Highlights of October Council Meeting, R. D. Forger, *December, p. 1321*
Highlights of SPE Progress at the 17th ANTEC, R. D. Forger, *March, p. 291*
How SPE Recognizes Distinction in Plastics Science and Engineering, F. W. Reinhart, *September, p. 1007*
Mid-Yead Progress Report, F. W. Reynolds, *July, p. 692*
New Award to Outstanding International Plastics Engineer, F. C. Sutro, *October, p. 1110*
Organization of the Society, R. K. Gossett, *January, p. 107*
SPE's New Administrative Board in Action, John Delmonte, *June, p. 597*

AUTHOR INDEX
